Minutes of meeting of Curriculum committee

A Meeting on curriculum planning for summer batch UG and PG programs for Academic Year 20-21 was held as per circular no MGV/KBHDC/CC/02 /2020-21

Date – 23/07/2020

Time – 09:00 am

Venue – Principal office

Agenda of meeting

1. Confirmation of minutes of meeting of the previous meeting
2. Confirmation of action taken report of the previous meeting
3. The graduate attributes, program outcome and course outcome to be approved in accordance with the guidelines of DCI and MUHS.
4. Curriculum planning for forthcoming academic term of summer 20 - 21 batch UG and PG programs
5. Adaptation of On-line teaching and learning for teachers and students for all subjects.
6. Implementation of Value added and Add on courses for the year 20 - 21
7. Approval of interdisciplinary/ interdepartmental course/ training
8. Approval of Integration of Cross cutting issues into curriculum
9. Implementation of Field visits, industry visits for the year 20 - 21
10. Any other matter with permission from the chairman.

Following members attended the meeting –

Sr no.	Faculty member	Designation
1.	Dr Meenal Gulve	Chairperson/ Principal and HOD Conservative dentistry and Endodontics
2.	Dr Swati Pustake	Member Secretary, Academic In-charge
3.	Dr Ajay Bhoosreddy	Member, HOD Oral Medicine and Radiology
4.	Dr Nitin Gulve	Member, HOD Orthodontics
5.	Dr Swapna Mahale	Member, HOD Periodontics
6.	Dr Sachin Dahivelkar	Member, HOD Oral and Maxillofacial surgery
7.	Dr Bikash Pattanaik	Member, HOD Prosthodontics
8.	Dr Arti Mahajan	Member, HOD Oral Pathology
9.	Dr Pallavi Tripathi	Member, HOD Public Health Dentistry
10.	Dr Swapnil Patil	Member, HOD Pediatric dentistry
11.	Dr Apurva Bachaav	Member, Feedback Co-ordinator

12.	Dr Amit Nehete	Member, Inter-disciplinary Co-ordinator
13.	Dr Meenakshi Sreeram	Member, Medical Wing Co-ordinator

Minutes of meeting of Curriculum committee

Meeting on curriculum planning for summer batch UG and PG programs for Academic Year 20-21

Agenda	Points of discussion	Instructions and suggestions	Status
Confirmation of minutes of meeting of the previous meeting	Minutes of meeting of the previous meeting were read out and confirmed	NA	NA
Confirmation of action taken report of the previous meeting	Action taken report of the feedback analysis from the previous meeting read out and confirmed	NA	NA
Formulation of learning outcome, graduate attributes, program outcome and course outcome	To prepare the learning outcomes, graduate attributes, program outcomes and course outcomes for BDS and MDS programs.	The DCI and MUHS guidelines to be taken in consideration while formulating the learning outcomes, graduate attributes, program outcomes and course outcomes for BDS and MDS programs.	Action completed
Curriculum planning for academic term	Curriculum to be designed following the DCI 2007 regulations and MUHS instructions involving the whole syllabus preparation for university examinations. Syllabus planning should begin at the department level – Microplanning.	HODs have been directed to formulate and implement schedules for lectures and practicals, ensuring syllabus completion aligns with exam timetables.	Action completed
	Emphasis was placed on the collective effort of committees to establish a proper timetable incorporating orientation, three sessional assessments, an extra sessional test, and PTM.	All were notified of the estimated dates for orientation, exam sessions, PTM, extra classes and student holidays,	Action completed
	Planning for remedial teaching for slow learner and extra training for advanced learners after 1 st PTM and later again after 2 nd PTM.	HODs were commanded to create a roster of students eligible for remedial teaching after the first sessional examination.	Action completed

	The execution of the academic schedule for postgraduate students was discussed.	Green light was provided for MDS students to engage in preclinical sessions, seminars, journal club meetings, clinical case presentations, and to complete their synopses, dissertations, and partake in internal and university evaluations.	Action completed
Adaptation of On-line teaching and learning for teachers and students for all subjects.	Due to Covid -19 pandemic lock down, adapt to on-line teaching	Take steps to make on-line teaching interesting and effective – Show videos Give assignments Make the teaching interactive by involving the students.	Action completed
Value added courses for the year	Instructors and department heads were prompted to propose value-added courses for the annual curriculum. Plans were made to roll out four additional courses, 16 hours each, accessible to BDS students from all levels, interns, and PG candidates. Suggestions - Music course Photography Ethics Leadership courses Publication and Paper writing	It was resolved to introduce four 16-hour specialty courses for BDS students in all years, interns, and postgraduates, spanning an entire term. Decision - Music course Photography Ethics Leadership courses Publication and Paper writing	Action completed
	Consideration was given to offering one exclusive add-on course for PG students.	Following value addition course was offered for MDS students Cosmetic Dentistry	Action completed
Add on courses for the year	HODs and faculty planned the add on courses for the year The proposal was to introduce a unique add-on course for each level of BDS students, interns, and PG students. Suggestions were Diet Advanced Dentistry	Recommendations to offer one add on course of 16 hours for I, II and III BDS students - Decisions – Nutrition and Dietetics Recommendations to offer one add on course of 16 hours for IV BDS, Interns and PG students - Advances in dentistry	Action completed

Interdisciplinary courses for the year	In accordance with the regulations laid down by the Dental Council of India (DCI) in 2007, the teaching of statutory subjects necessitates an interdisciplinary approach. This methodology is designed to enhance students' appreciation of the inherent correlations between each subject and to present dentistry as a cohesive educational endeavor. Additionally, there have been deliberations on potential horizontal and vertical integrations within the current curriculum framework.	The list of topics that need an interdisciplinary/ interdepartmental approach to be prepared by every department with reference to the syllabus given by DCI for BDS and MDS programs.	Action completed
Integration of Cross cutting issues into curriculum	Cross cutting issues play a vital role in building the student into a responsible citizen of our country.	The institute is affiliated to MUHS and DCI, the syllabus prescribed by these bodies incorporates the cross cutting issues in the syllabus itself. These topics have been taught by the institute since its inception. The department Heads have to identify those topics as cross cutting issues.	Action completed
Field visits, industry visits, Research activities for the year	Various educational visit possibilities were discussed to enrich students' experiential learning. Venues such as laboratories, museums, blood banks, and dental clinics were contemplated for educational tours.	For curricular enrichment, visits to blood banks, pathology laboratories, and large dental clinics were confirmed.	Action completed
	The discussion included community placements at satellite facilities and outreach camps.	Interns posted to rural areas in satellite centres and involved in various camps in and around Nasik city.	Action completed
	The discussion stressed the need for supplementary educational visits for MDS students	Scheduled for the students were visits to animal houses and CAD CAM laboratories.	Action completed
Update on Winter Batch 2019-2020	The advancement of the syllabus for the winter batch	Department heads were tasked with reviewing	Action completed

Syllabus.	was assessed.	syllabus completion within their departments.

Action taken report on curriculum planning for summer batch UG and PG programs for Academic Year 2019-20

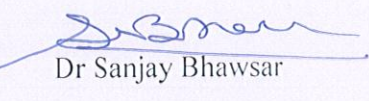

Meeting on curriculum planning for summer batch UG and PG programs for Academic Year 2019-20 dated 02/07/2019

Agenda	Points of discussion	Action taken
Formulation of learning outcome, graduate attributes, program outcome and course outcome.	To prepare the learning outcome, graduate attributes, program outcome and course outcome for BDS and MDS program.	The learning outcome, graduate attributes, program outcome and course outcome for BDS and MDS program have been meticulously prepared according to the DCI and MUHS guidelines.
Curriculum planning for academic term	Following DCI regulations from 2007 and MUHS guidelines for curriculum planning. Full syllabus consideration is key in planning for university exams	Heads of Departments (HODs) organized and implemented lecture schedules, practical, clinical postings schedules and ensured syllabus completion following the timetable for internal and university exams. Microplanning was done at department level. This is displayed
	The necessity for all committees to collaborate on creating a suitable timetable was emphasized. Planning discussions included how to integrate orientation, three sessional exams, an additional sessional exam, and parent-teacher meetings into the annual calendar.	Tentative scheduling of orientation, exams, parent-teacher meetings, remedial education, student breaks, sports/cultural events, and the graduation ceremony was communicated to everyone.
	Plans were laid out for additional teaching for slower learners and further training for advanced students following the first and second PTMs.	HODs were tasked with identifying students in need of remedial lessons after the initial sessional exam.

	Schedule for tentative dates for student vacation, sports and cultural week, and graduation cum farewell ceremony.	
	The execution of the academic schedule for postgraduate students was discussed.	MDS students time table for preclinical tasks, seminar participation, journal presentations, clinical case studies as well as the finalization of synopses, dissertations and exams finalized.
Value added courses for the year	<p>Faculty and HODs were encouraged to propose additional courses for the year.</p> <p>Discussion centered on providing four 16-hour value-added courses for students across all BDS years, including interns and postgraduates.</p> <p>Suggestions – Personality development course Scientific Literature search Hospital Administration Entrepreneurship Employability skills</p>	<p>The decision was made to implement four 16-hour supplementary courses for BDS students across all years and interns, as well as PG students, to be distributed throughout a term.</p> <p>Decision - Personality development course Scientific Literature search Hospital Administration Entrepreneurship Employability skills</p>
	The conversation for MDS students value added course included Teaching skills.	MDS students were offered following value addition course - Teaching skills.
Add on courses for the year	<p>Faculty and HODs convened to discuss the introduction of add-on courses for the year</p> <p>The decision was to introduce a 16-hour add-on course applicable for all BDS years, interns and PG students.</p> <p>Suggestions were Hematology for dental students Infection Control Medical Emergencies in Dentistry CBCT in dentistry</p>	<p>The allocated course for I, II and III BDS students was decided on –</p> <p>Hematology for dental students</p> <p>The allocated course for IV BDS, Interns and PG students was decided on –</p> <p>CBCT in dentistry</p>
Interdisciplinary courses for the year	<p>All the courses offered by DCI are taken as interdisciplinary courses.</p> <p>There was a conversation regarding interdisciplinary activities for MDS students.</p>	<p>All departments to co-ordinate and carry out the interdisciplinary activity in their course.</p> <p>For MDS students, the activities chosen included interdepartmental postings, interdisciplinary case</p>

		studies and discussions on integrated topics.
Integration of Cross cutting issues into curriculum	Embedding comprehensive issues within the educational program	The topics in the syllabus endorsing the current issues/cross cutting issues made more interactive by arranging guest lectures on the topics and by participating in out reach activities like organ donation rally.
Field visits, industry visits, Research activities for the year	A variety of educational visit opportunities were explored to bolster students' practical knowledge. Labs, museums, blood banks, and several dental clinics were among the venues discussed for visits.	It was determined that students would visit blood banks, pathology labs, and large dental clinics for educational purposes, adhering to curriculum demands.
	The discussion included community placements at satellite facilities and outreach camps, with a nod towards enhancing research project involvement.	The interns posted at the satellite centres and involved in outreach activities in and around Nashik.
		The students' itinerary included trips to animal houses, CAD CAM laboratories, and pharmacy labs.
	The discussion stressed the need for supplementary educational visits for MDS students.	MDS students visits to be taken to CAD CAM lab and animal house.
Update on Winter Batch 2018-19 Syllabus	the advancement of the syllabus for the winter batch was assessed	Department heads reviewed and reported syllabus completion within their departments and was satisfactory.

Curriculum Committee

Circular

The curriculum committee members are informed that the curriculum committee meeting for the winter batch curriculum planning for the year 2019-20 will be held on 09/12/2019 at 9:00 am in the Principal office.

Agenda of meeting

1. Confirmation of minutes of meeting of the previous meeting
2. Confirmation of action taken report of the previous meeting
3. Academic term planning with the dates of orientation, sessional exams, PTM, remedial teaching, student vacation, sports and cultural week and graduation cum farewell ceremony 2019-20
4. Planning for value added and subject related courses for the year 2019-20
5. Planning for **Interdisciplinary courses for the year 2019-20**
6. Integration of Cross cutting issues into curriculum
7. Planning for Field visits for the year 2019-20
8. Feedback procedure planning for the 2019-20.
9. Any other matter with permission from the chairman.

Action taken report on feedback on curriculum planning for summer batch UG and PG programs for Academic Year 2018-19

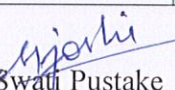

Minutes of meeting of Curriculum committee

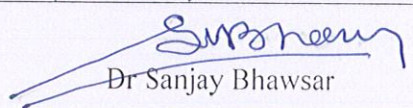

Meeting on curriculum planning for summer batch UG and PG programs for Academic Year 2018-2019 dated 06/07/18

Agenda	Points of discussion	Action taken
Curriculum planning for academic term	Setting up the curriculum based on DCI's 2007 regulations and MUHS's guidelines.	HODs have formulated schedules for lectures, practicals and clinical postings, ensuring syllabus completion aligns with exam timetables. The planning is displayed on notice boards.
	Entire syllabus to be considered in preparation plans for university exams.	
	Emphasis was placed on the collective effort of committees to establish a proper timetable.	All notified of the estimated dates for orientation, exam sessions, PTM, extra help classes, student holidays, sports/culture week, and the graduation event.
	Yearly planning discussions focused on incorporating orientation, three sessional assessments, an extra sessional test, and PTM.	
	A plan was devised to provide remedial instruction for struggling students and extra training for advanced learners after the initial and subsequent PTMs. Planning for tentative dates for student vacation, sports and cultural week, and graduation cum farewell ceremony.	HODs prepared a strategy to help slow learners perform better and advanced learners excel.
	Discussion about execution of time table for PG students	Preclinical exercises, seminars/ journal club presentations/ clinical cases presentation to be put in the timetable for MDS students.

		Tentative dates of synopsis and dissertation completion, internal and university examinations for MDS students was planned.
Value added courses for the year	<p>HOD's and faculty were invited to suggest the value added courses for the year</p> <p>The proposition was to introduce four supplementary courses, each spanning 16 hours, for BDS students from first to fourth year, interns, and PG students.</p> <p>Suggestions - Human Psychology Health Education and Sociology Counselling skills and fundamentals Yoga and Nutrition Microsoft Advanced Excel</p>	<p>It was decided to offer four value addition courses of 16 hours each for I,II,III,IV BDS students, Interns. PG students. The course was spread over a term.</p> <p>Decision - Basic of Human Psychology Health Education and Sociology Life skills Yoga and Nutrition Microsoft Advanced Excel</p>
	It was discussed to offer one value addition course for MDS students	<p>Following value addition course was offered for MDS students</p> <p>Stress Management</p>
Add on courses for the year	<p>Department Heads and faculty engaged in discussions about Add – on courses for the current year.</p> <p>The idea of presenting an individual add-on course for each BDS class, interns, and PG students was explored.</p> <p>Suggestions were Basic Immunology for Dental student Minor Oral Surgery for Dental Students</p>	<p>It was agreed upon to roll out a 16-hour add-on course for I, II and III year BDS students –</p> <p>Basic Immunology for Dental student</p> <p>It was agreed upon to roll out a 16-hour add-on course for IV BDS, Interns and PG students –</p> <p>Minor Oral Surgery for Dental Students</p>
Interdisciplinary courses for the year	<p>All the courses in the DCI curriculum come under interdisciplinary approach as dentistry has to be taught as one program.</p> <p>Interdisciplinary activities were discussed for MDS students</p>	<p>All departments to participate in teaching BDS program by interdisciplinary approach.</p> <p>Rotatory Interdepartmental posting for 1st MDS students, schedule for Interdisciplinary case presentations.</p>

		discussion of horizontal integrated topics and Journal articles presentation was made.
Integration of Cross cutting issues into curriculum	Integration of current issues into the curriculum for UG and PG students	It was decided to include topics from the syllabus for cross cutting issues and additional activities to enhance the idea of the same.
Field visits, industry visits, Research activities for the year	HOD's and faculty discussed the various options for educational visits to add to students' practical knowledge. Laboratories, Museums, Blood banks, Various dental clinics were considered for the same.	I BDS - Arpan Blood bank, II BDS – Metropolis Pathology laboratory, III and IV BDS – Swastik dental clinic, Teeth care dental clinic and DRDC dental clinic were finalized for educational visits for students as per the curricular requirements.
	Community service postings in satellite centers and outreach camps were reviewed, with a view to also promoting research endeavors as a supplementary activity.	Several community engagement activities like camps, school dental visits were organized, taking into account the students' necessity to learn through community interaction.
	Additional educational trips for MDS students were highlighted as a requirement and discussed.	The MDS students' educational trips included trips to animal houses and CAD CAM laboratories.
Winter Batch 2017-2018 Syllabus Update	The status of syllabus completion for the winter batch was reviewed	Department heads assessed syllabus progress within their departments and reported back as satisfactory.
